

Something is Always Happening in

(fill in the blank with the name of your town)

Dear Educator, Parent or Caregiver,

This coloring book is being provided to your 3rd grader by Career Street, Mercyhurst University Art Department and *Sponsor's Name here* to be used as a tool to discuss the many career options we have in our area.

Each page was designed by a Mercyhurst University graphic design student with Erie in mind. As the 3rd grader colors each page, we encourage you to discuss what is happening and identify the careers illustrated on the page.

We hope you and your 3rd grader enjoy this coloring book, and maybe even identify some familiar sights!

Sincerely,

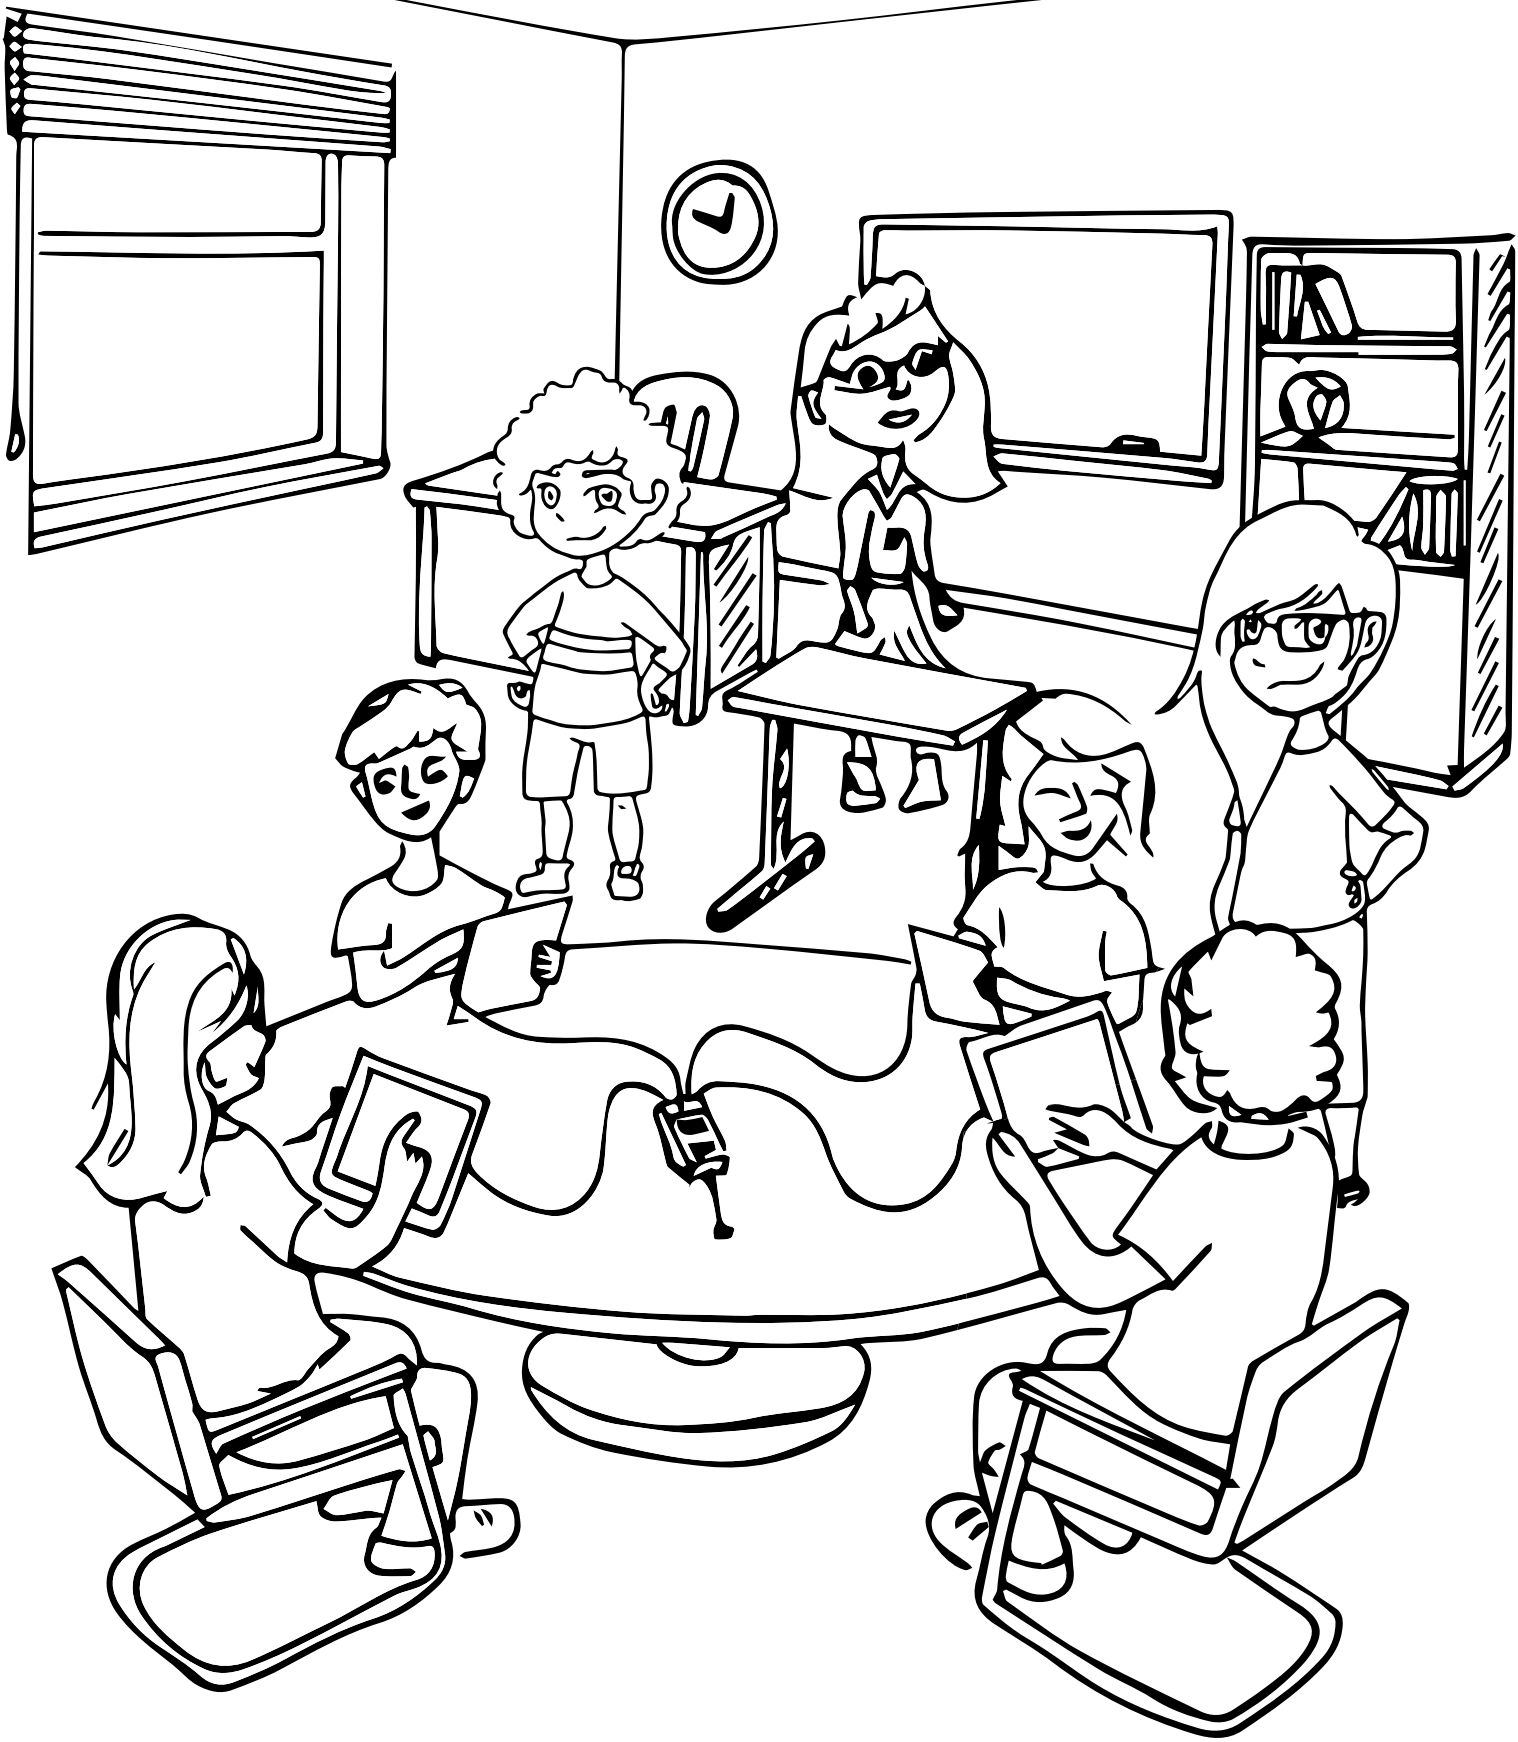

Jennifer Nygaard Pontzer

Career Street

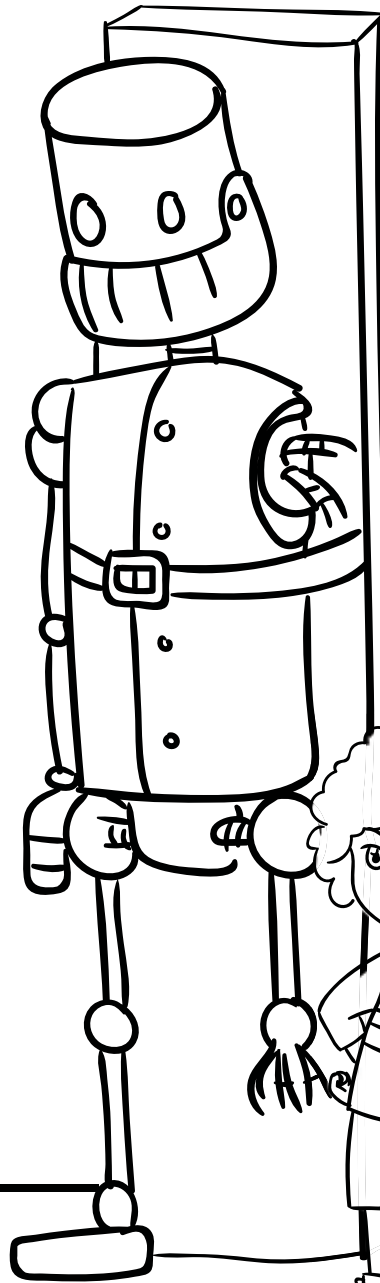

SCHOOL

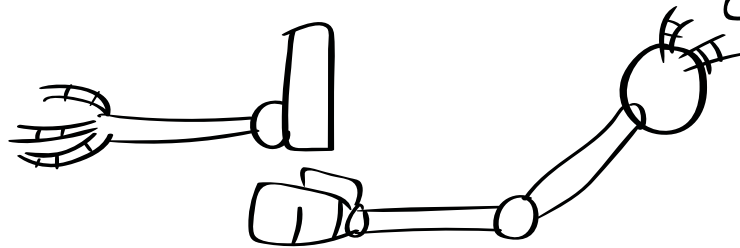

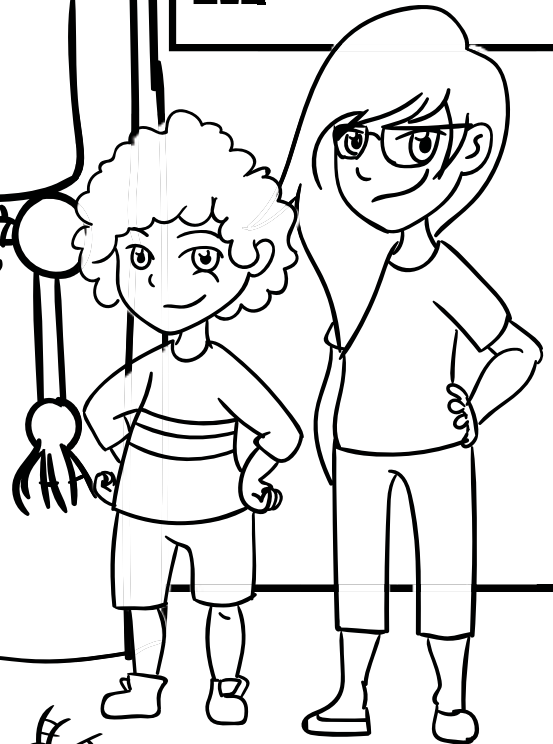

In the classroom, our math **TEACHER** has us work in groups.

In the library, we do our homework by ourselves. Sometimes the **LIBRARIAN** helps us find books.

Science
Technology
Engineer
Art
Math

My favorite is **STEAM** class, where we learn about
Science, **T**echnology, **E**ngineering, **A**rts and **M**ath.

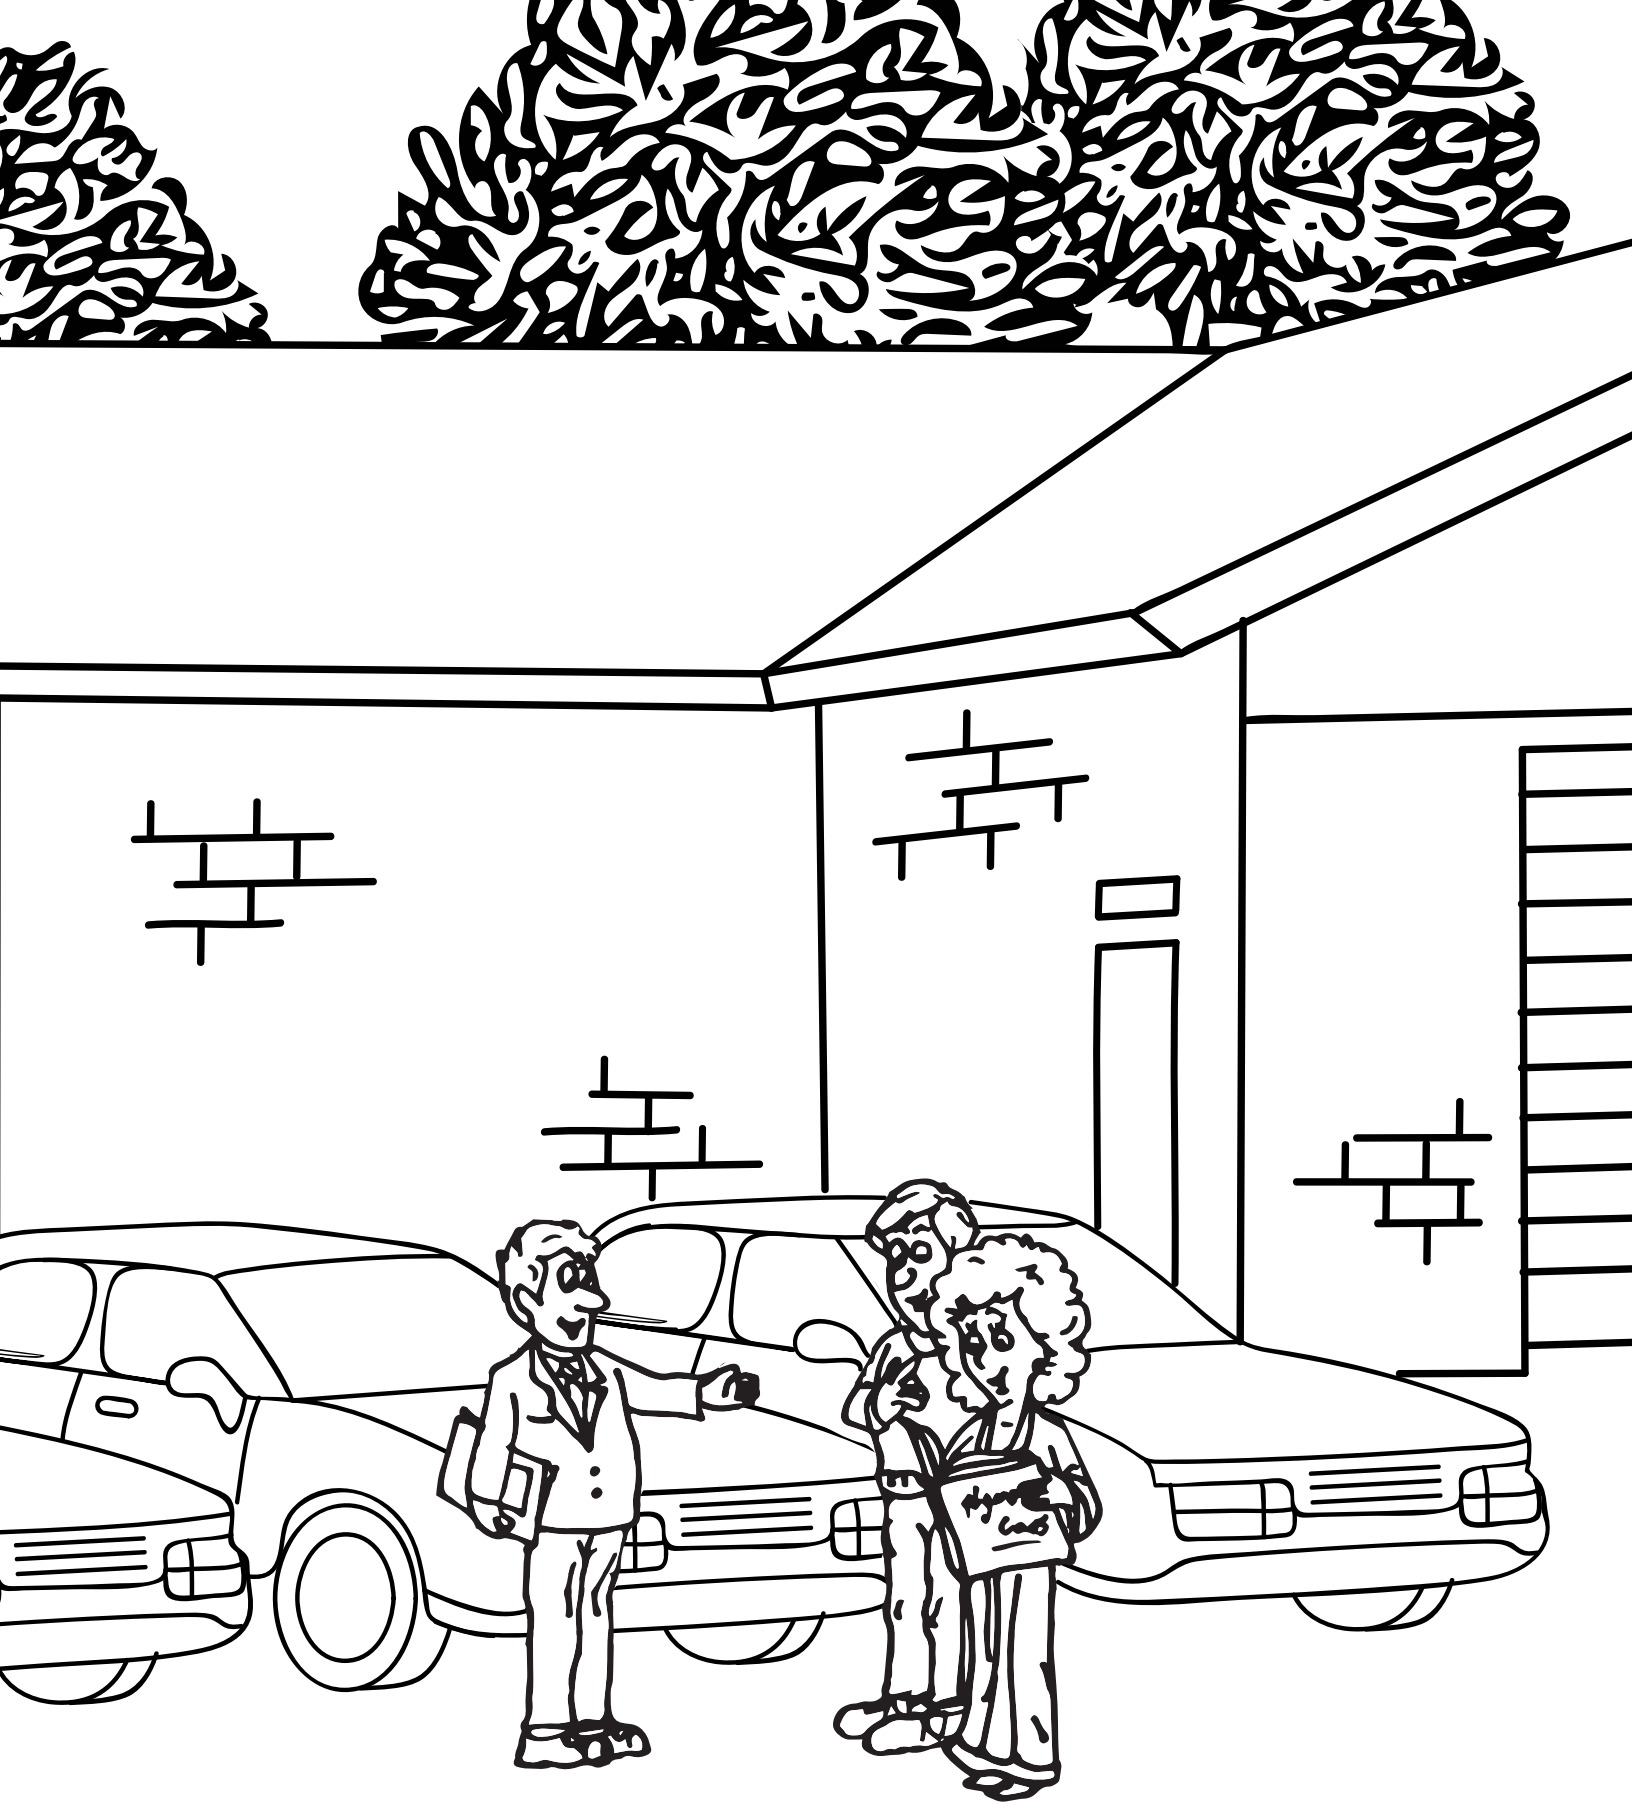

Art can be **DANCE** and
PHOTOGRAPHY.

On the way home, we met a
FIREWOMAN rescuing a cat

FIREMEN and **FIREWOMEN**
help keep us and our pets' safe!

On our way home we also stopped by an auto shop where
SALESPEOPLE sell cars . . .

ere

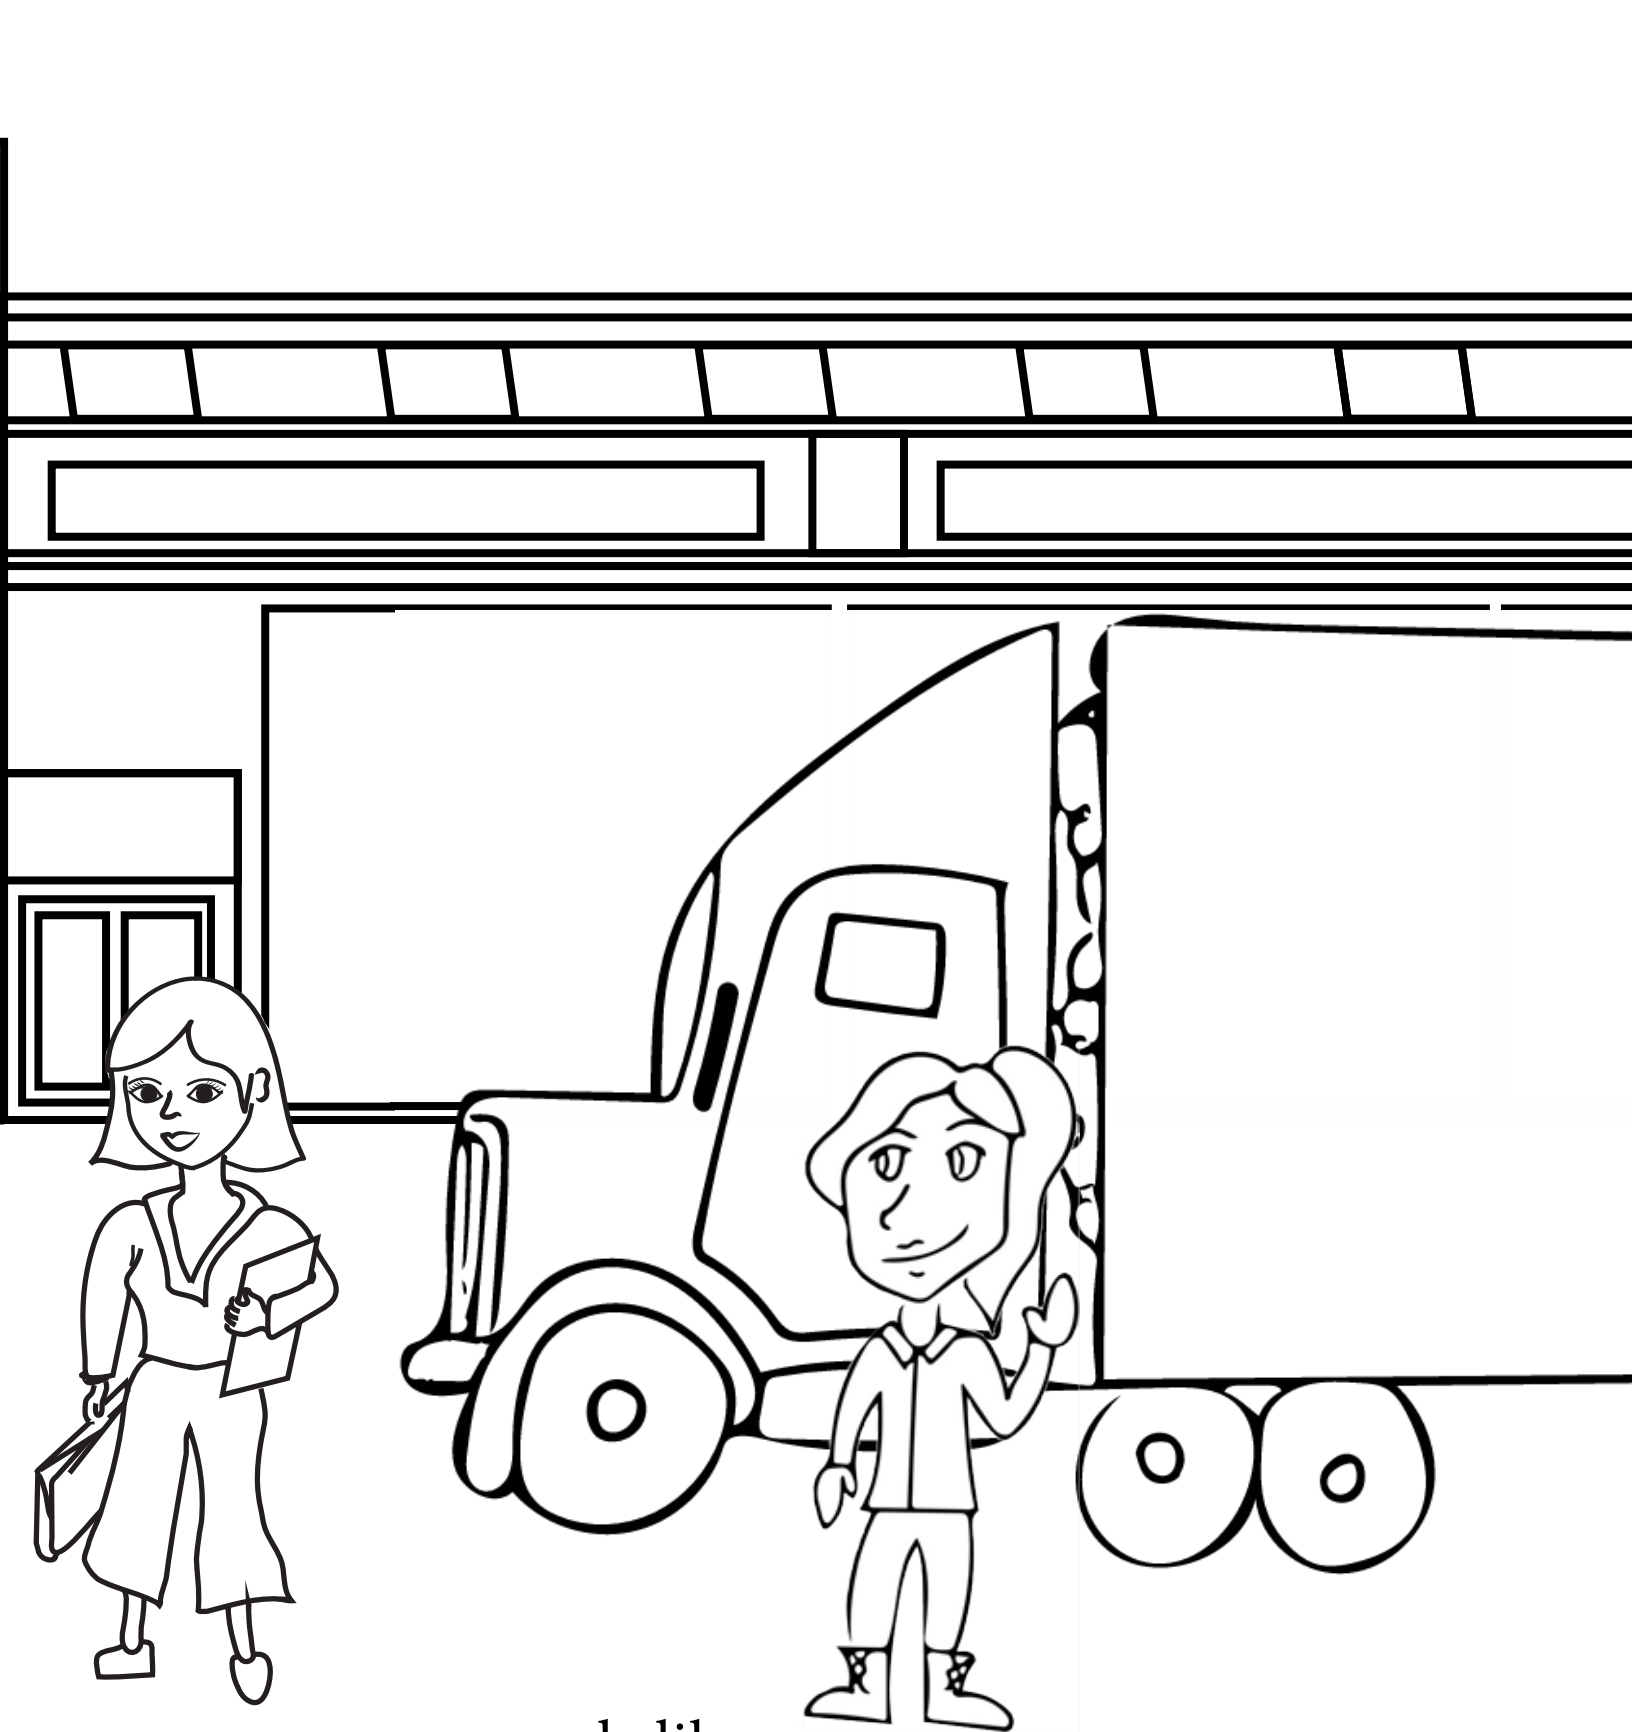

... and **MECHANICS** fix cars.

The train station was busy with

BUSINESS PEOPLE

coming and going to work.

we saw many people like a

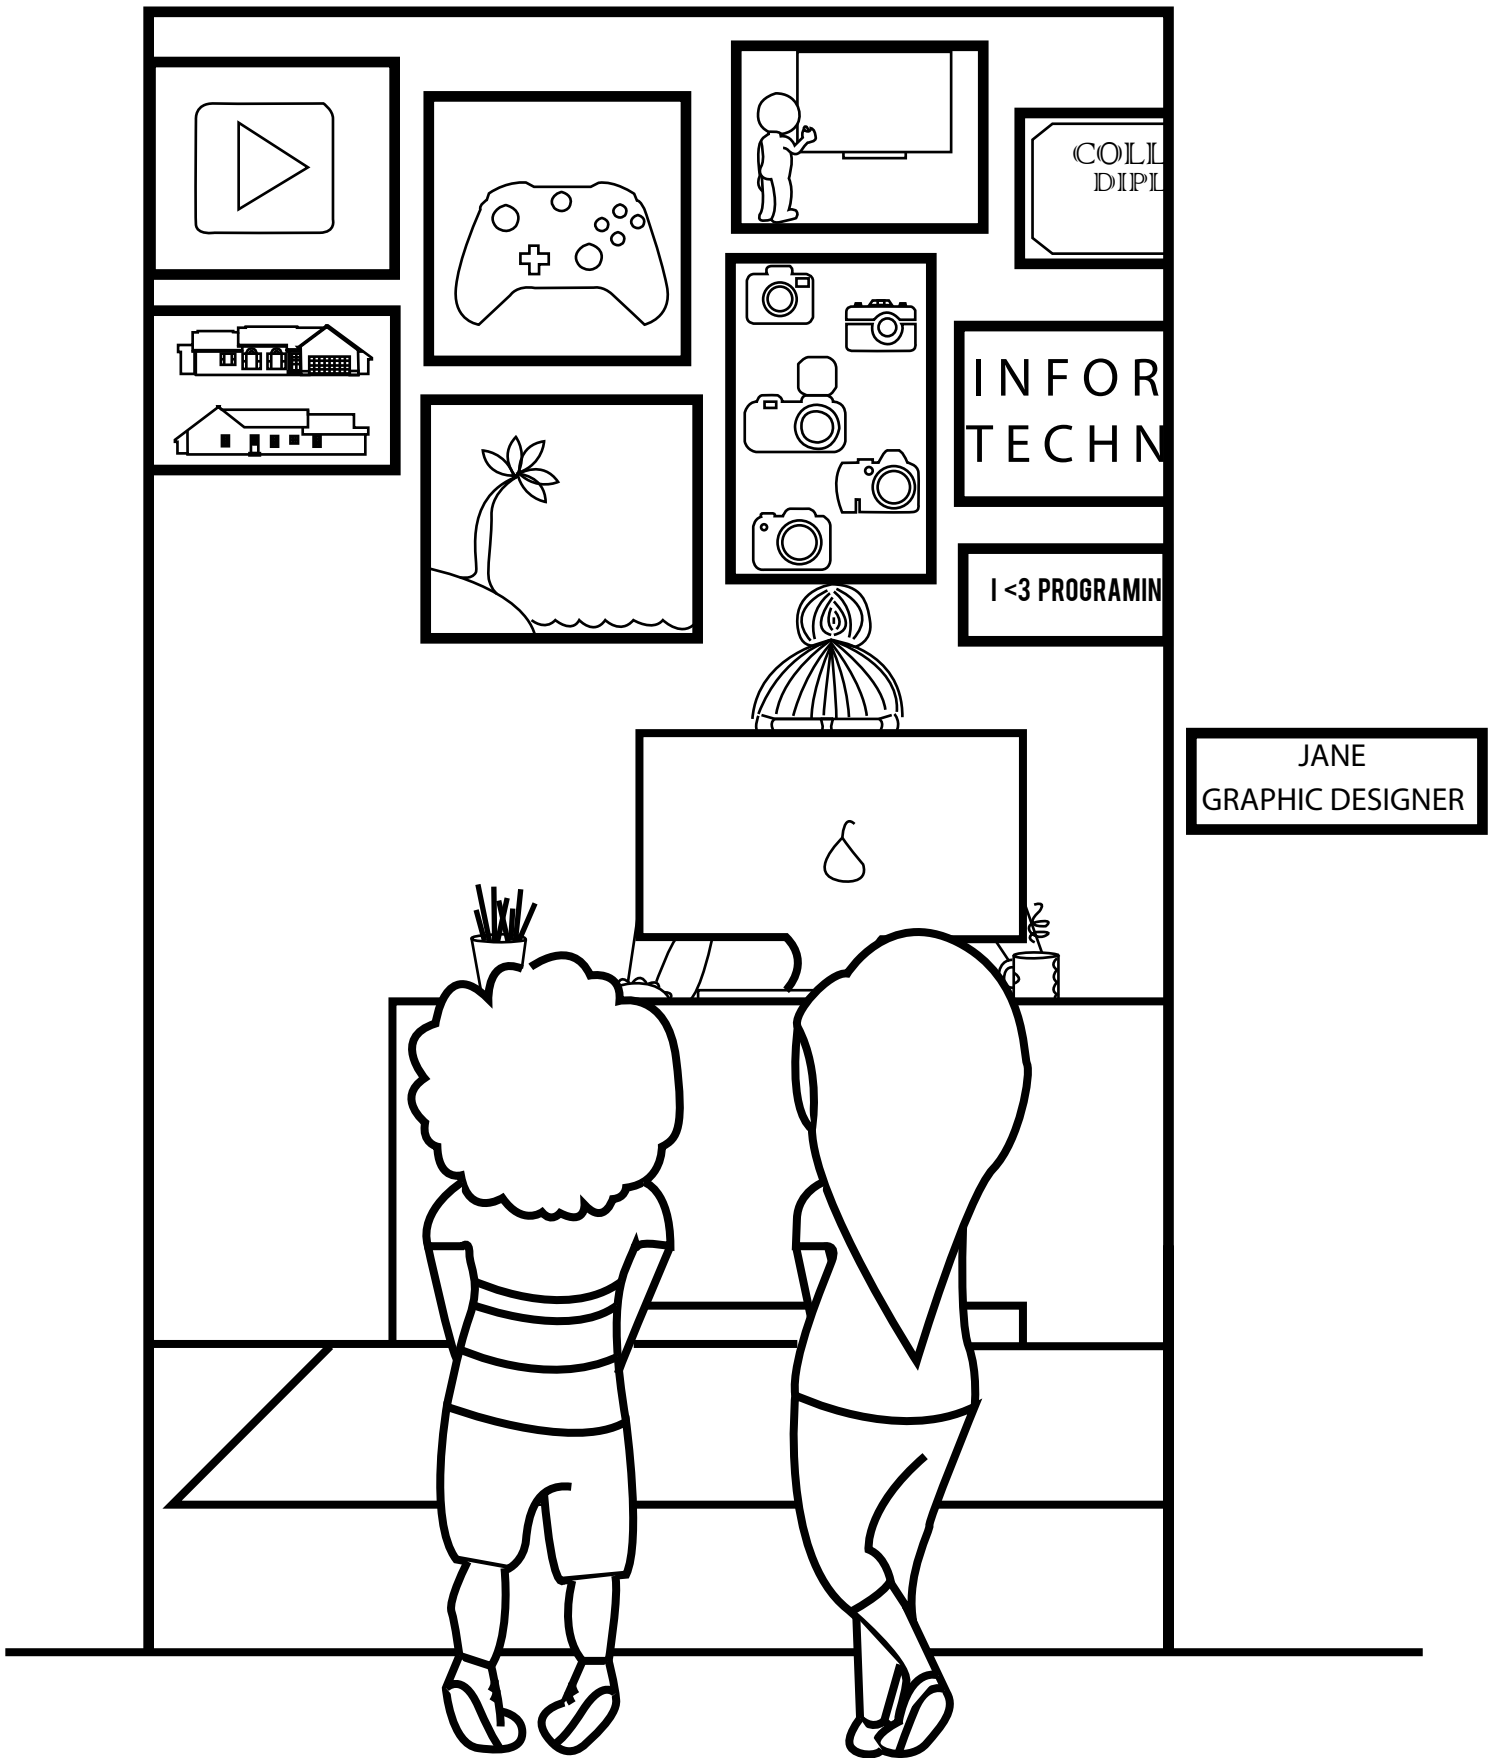

TRUCK DRIVER
MAYOR

and even the

who helps run our town.

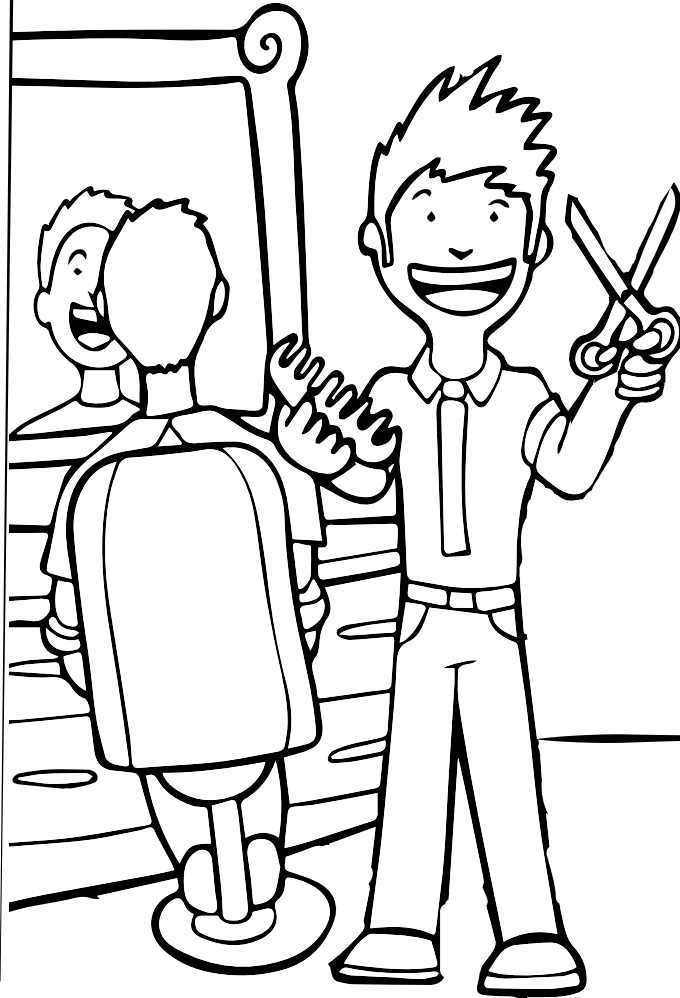

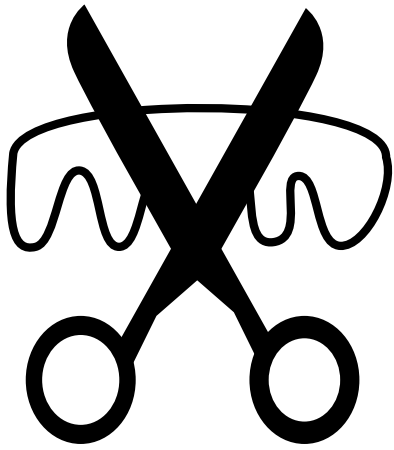

After the train, we saw the bank where
BANKERS take care of money.

We saw a **DESIGNER** who worked on computers. A lot of art is done on computers.

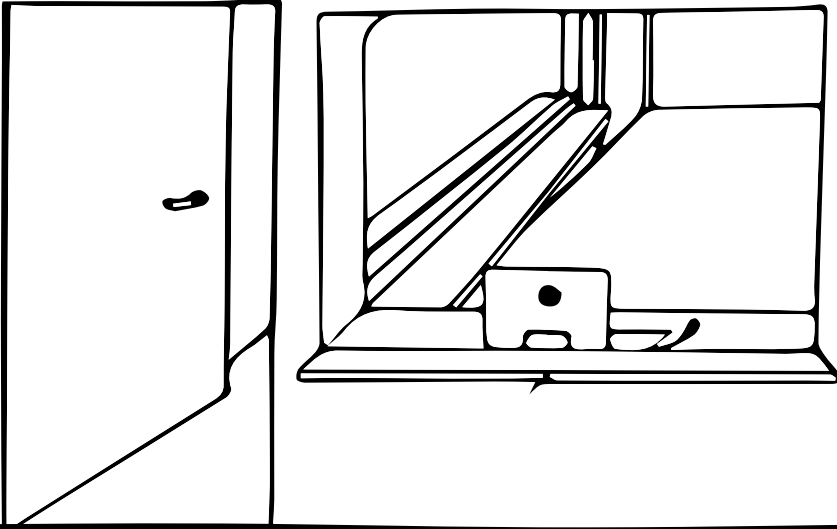

BARBER SHOP

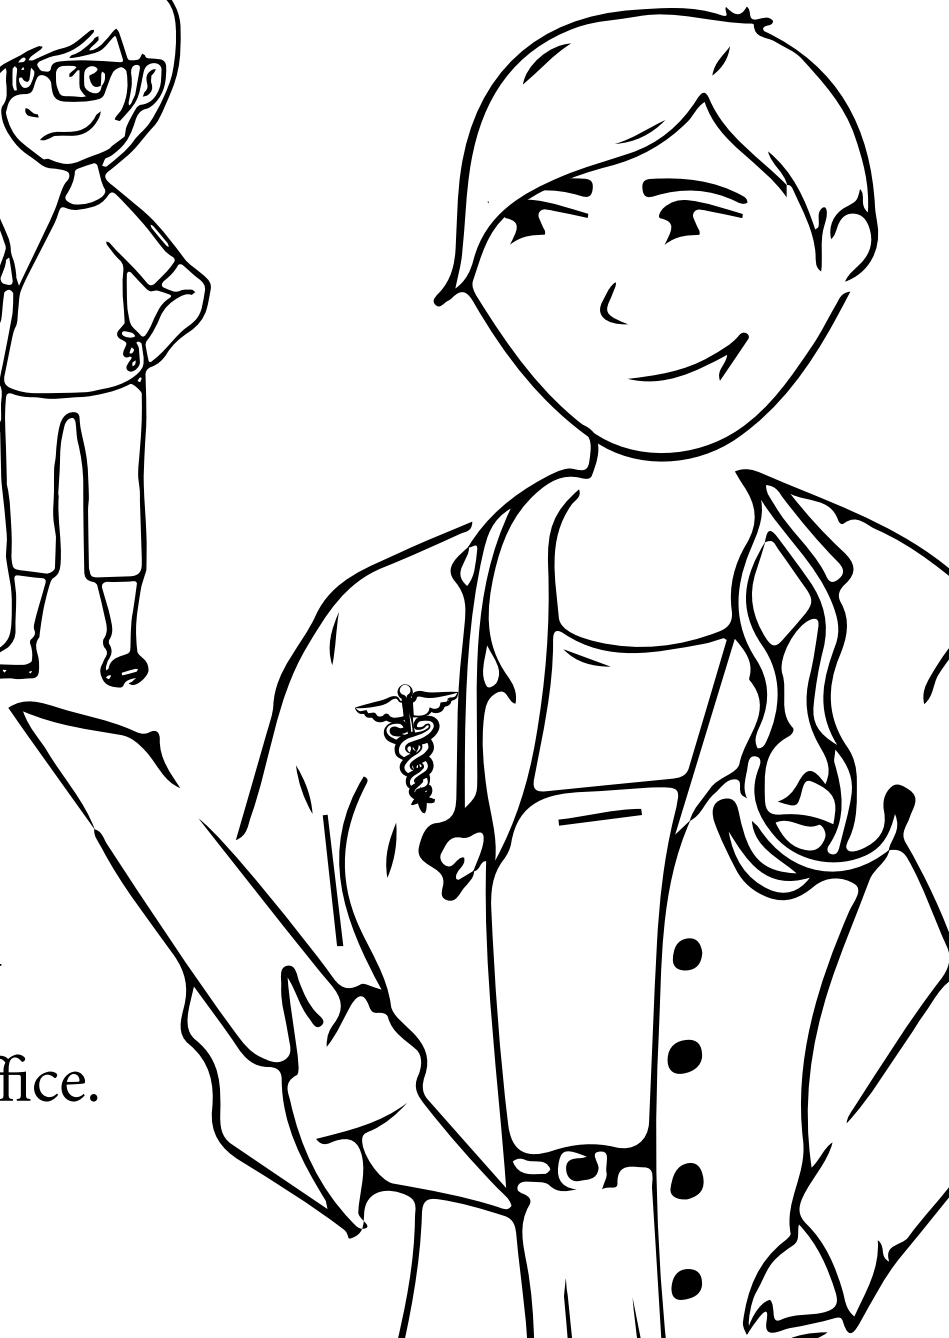

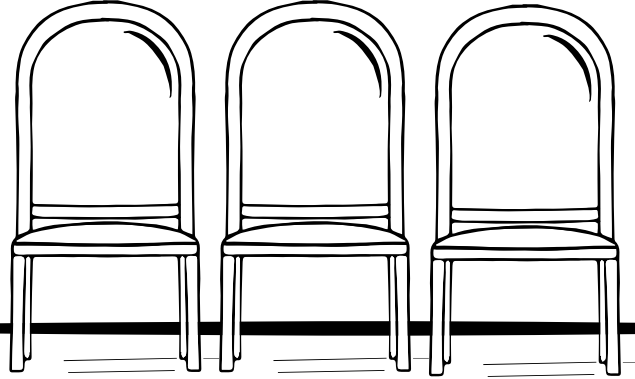

We saw a man sitting and getting his hair cut by the

BARBER.

UPMC Hamot

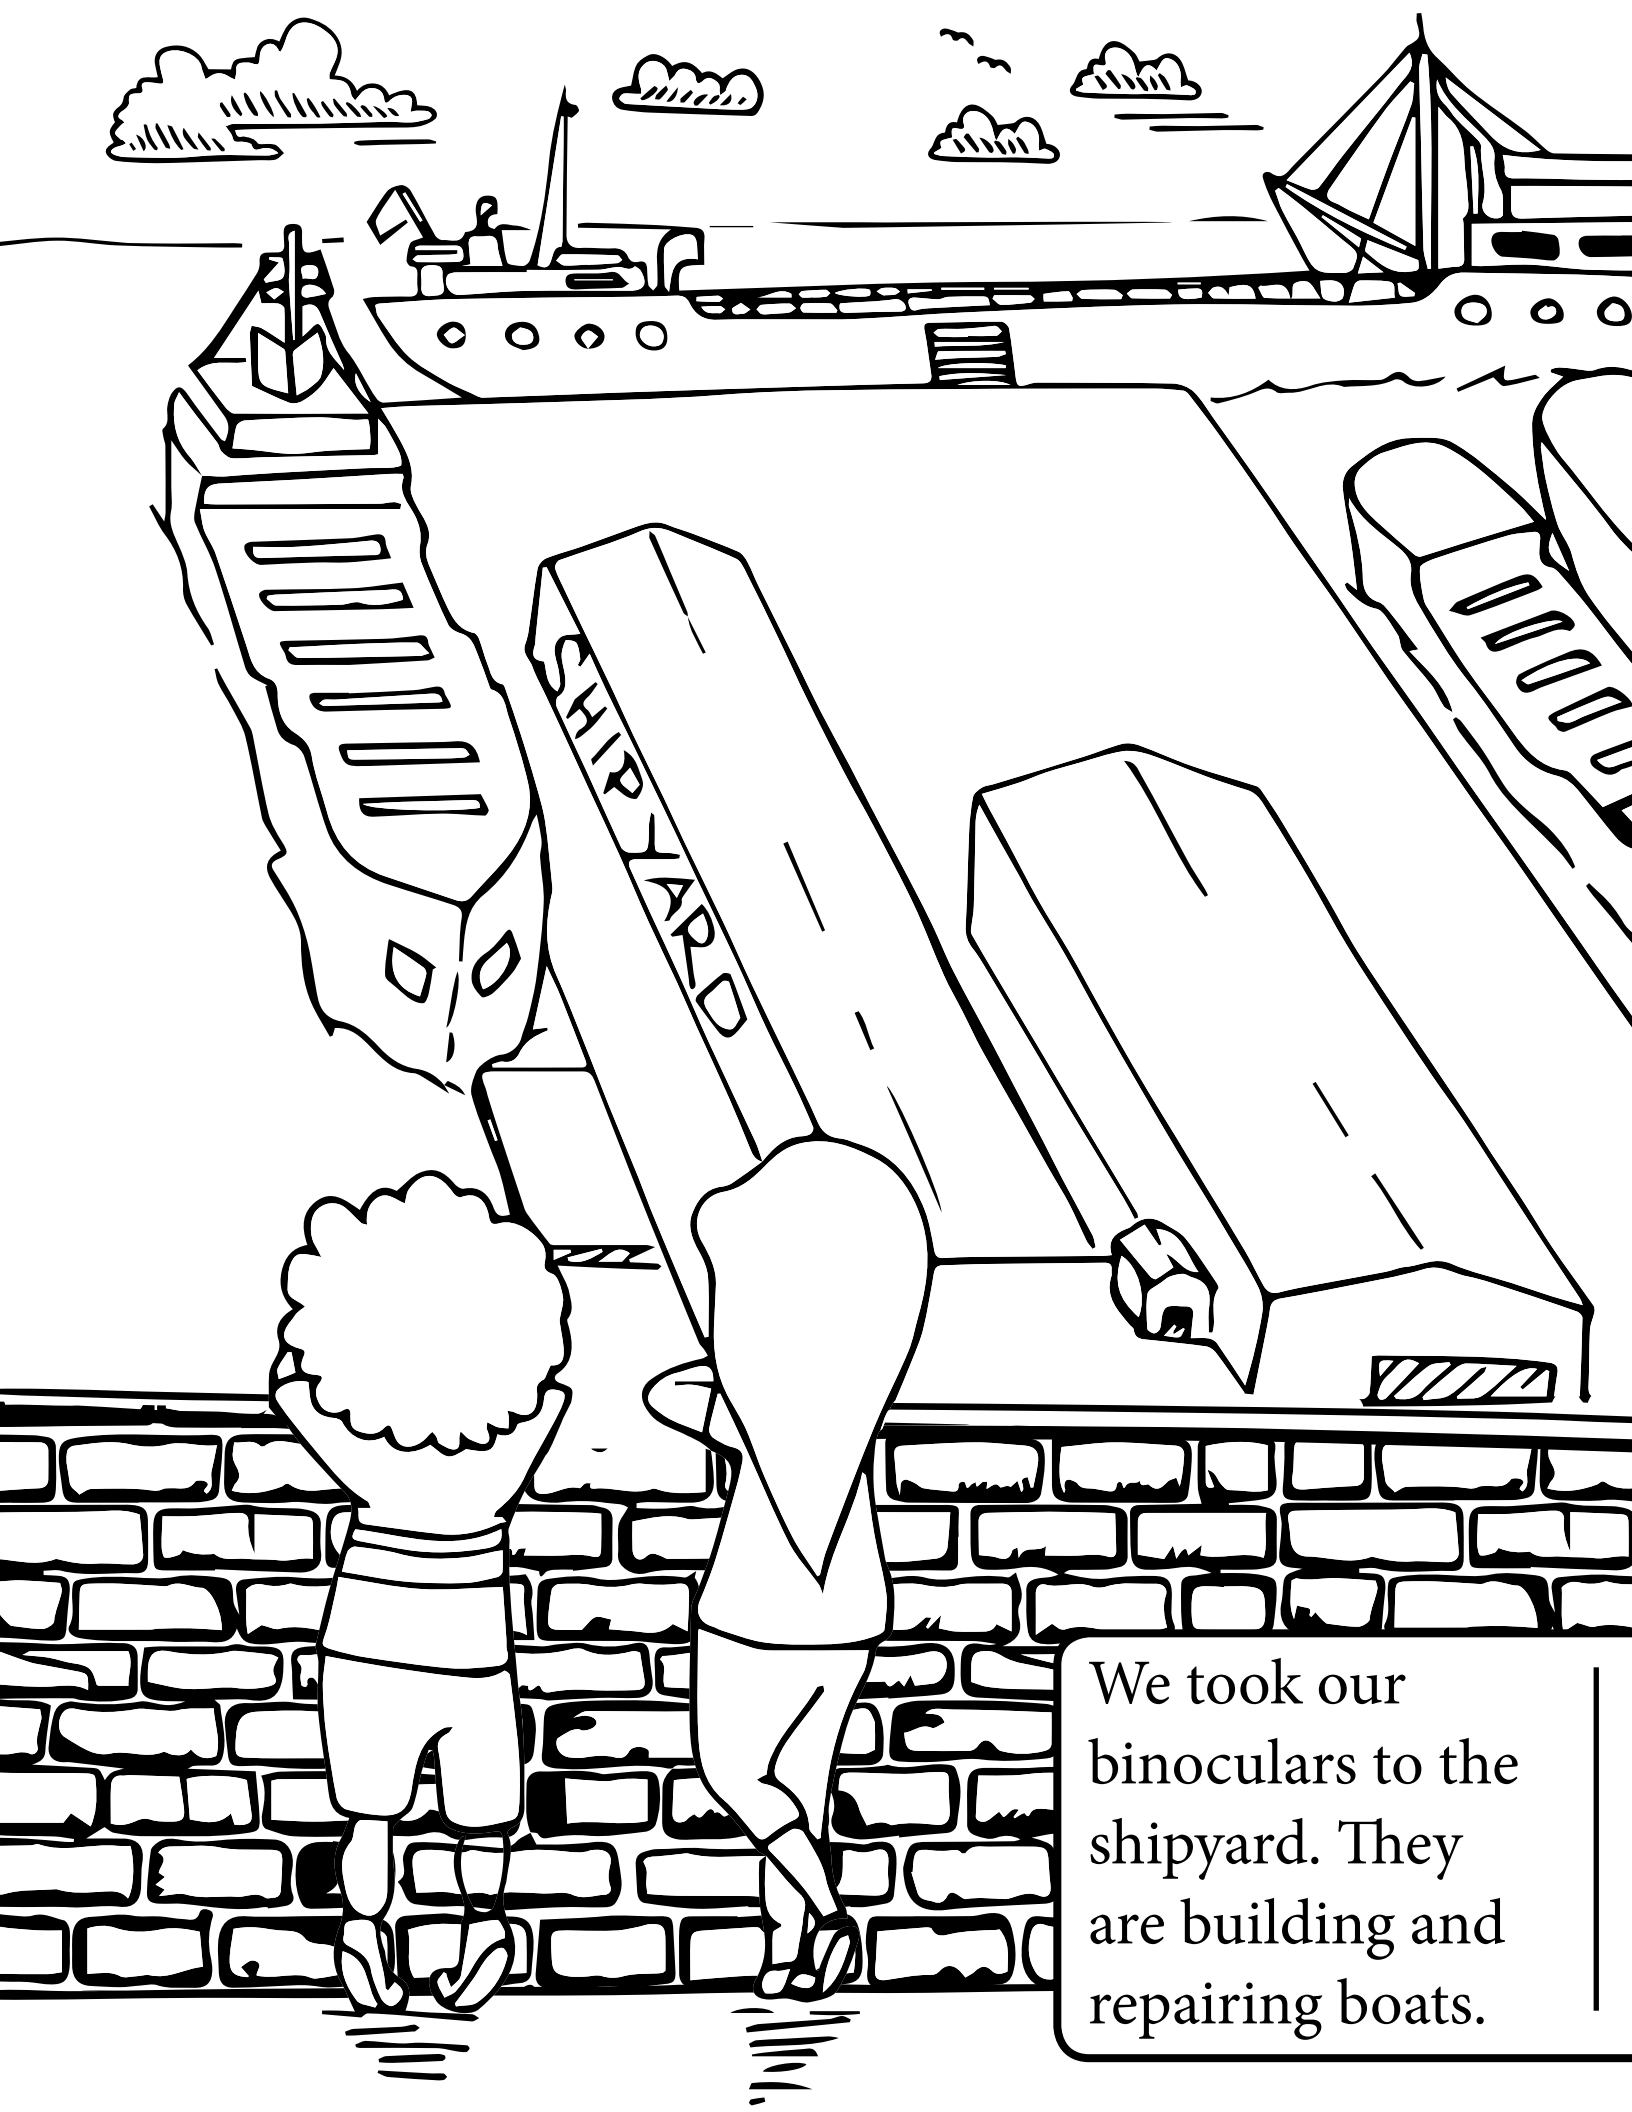

We even passed by my
DOCTOR'S office.

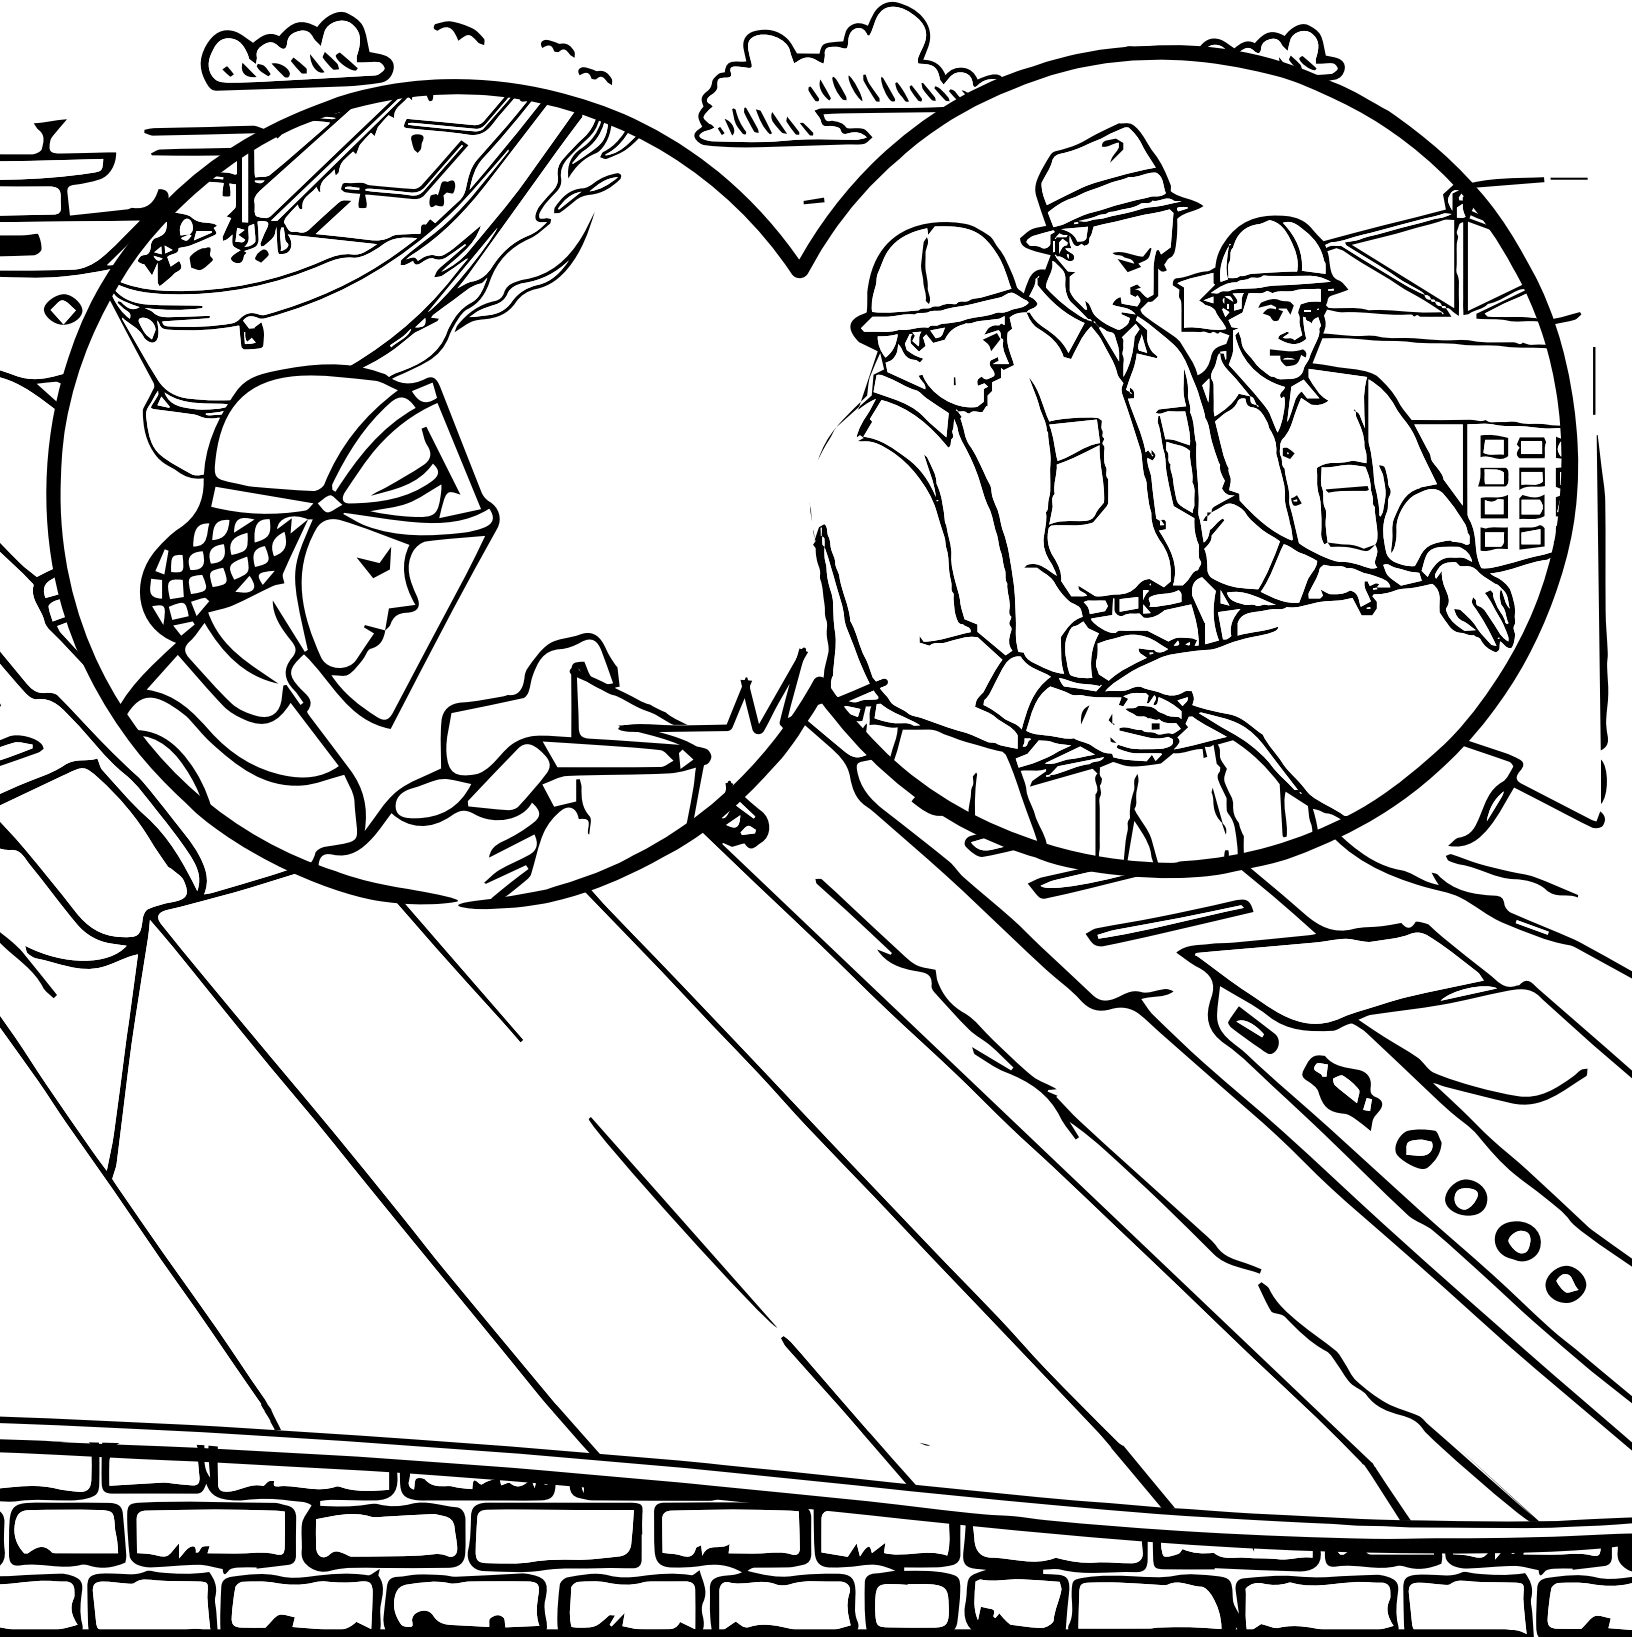

FARMERS grow our food. Some farmers sell food to the grocery store. Some farmers sell food right to us at the market in the park.

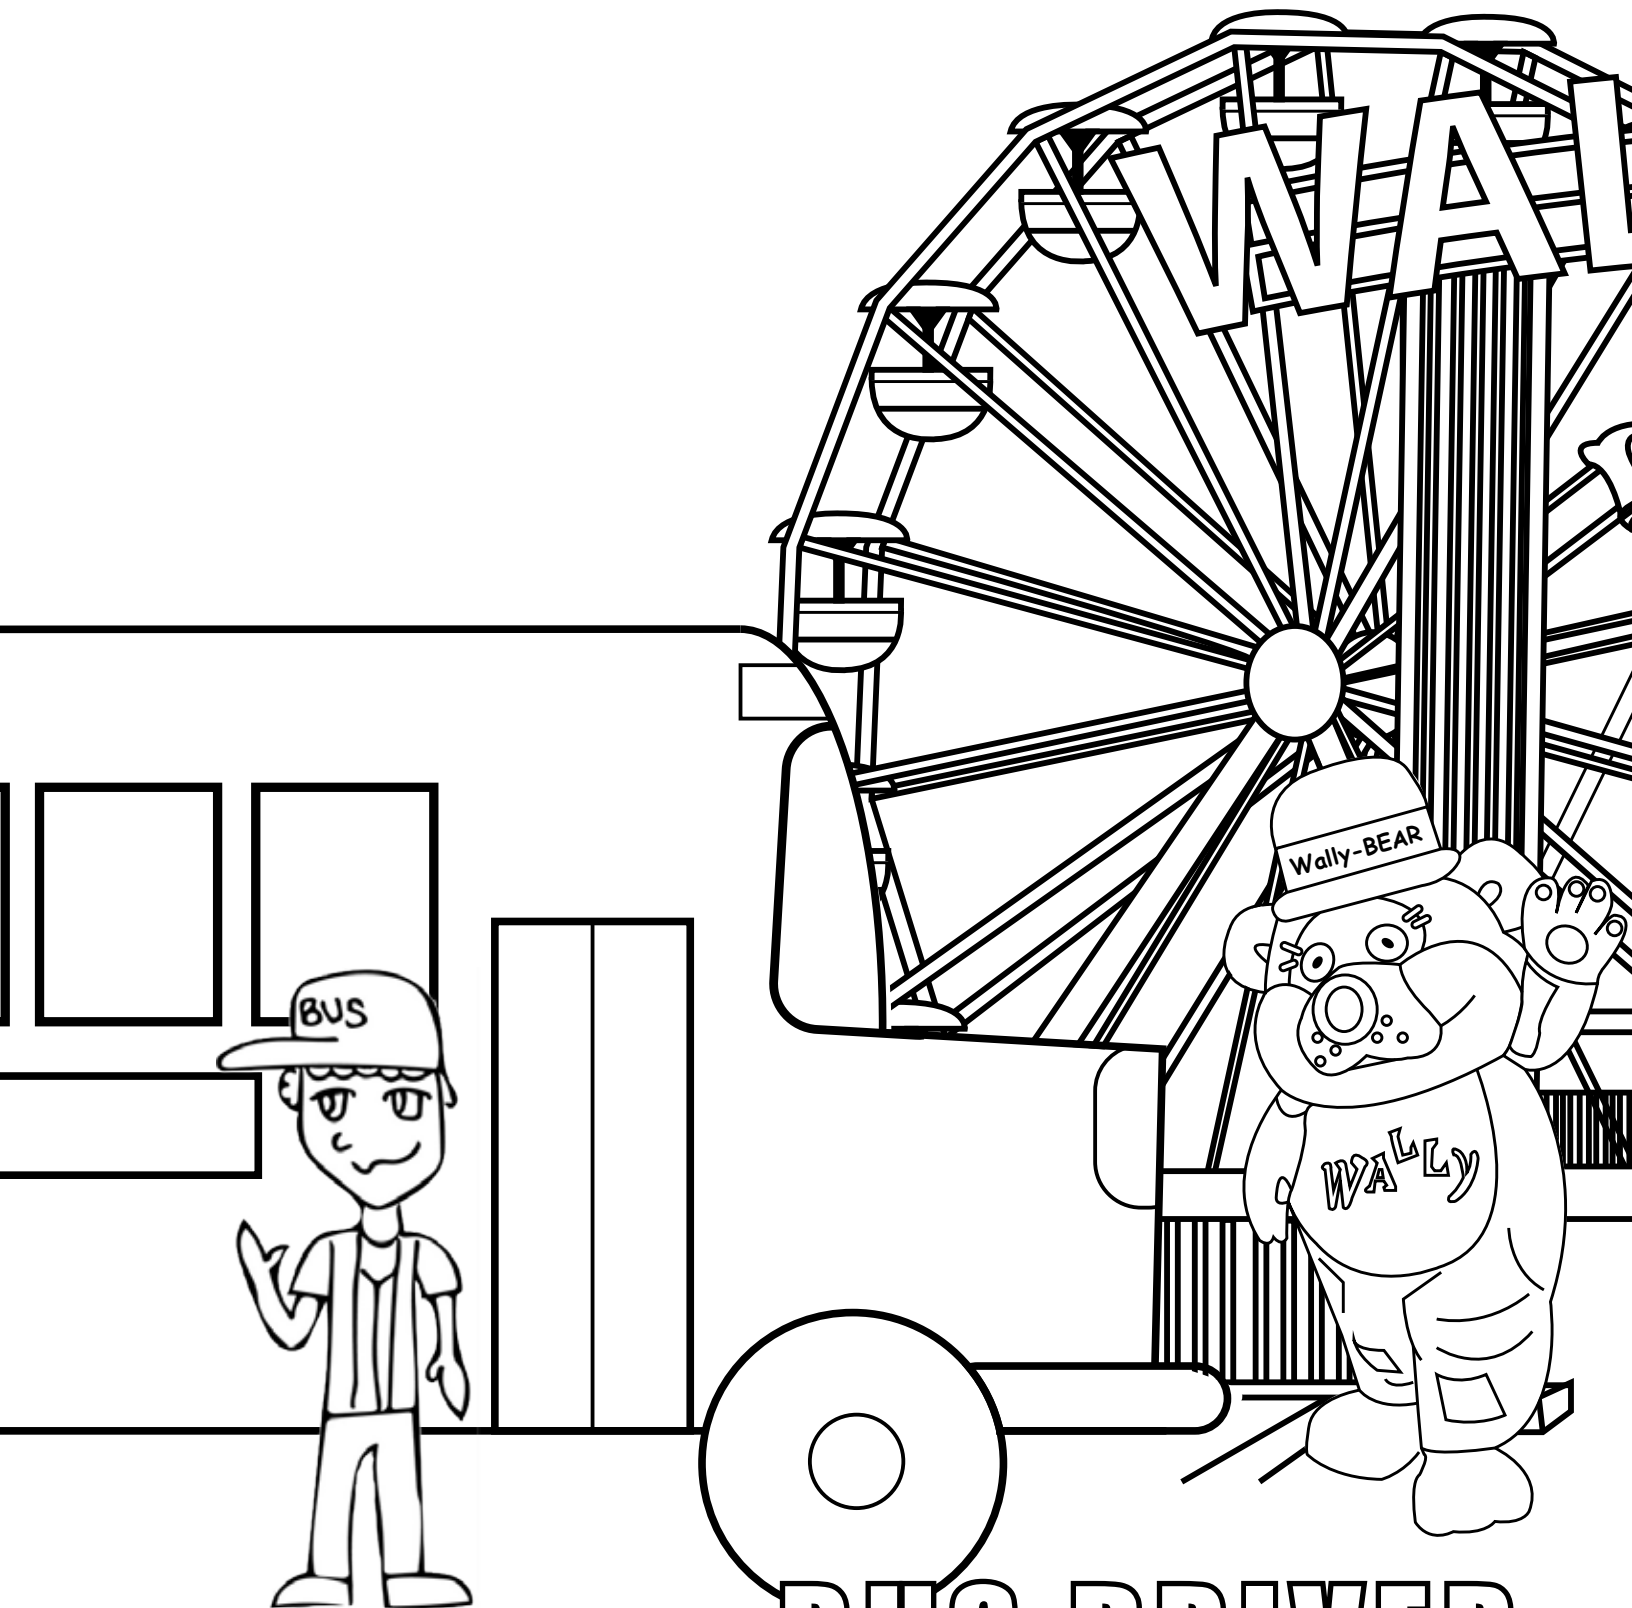

A **CHEF** is a person who cooks food. Many chefs work in restaurants. Some chefs work in vehicles and drive the food to the hungry people. We got pizza!

We took our binoculars to the shipyard. They are building and repairing boats.

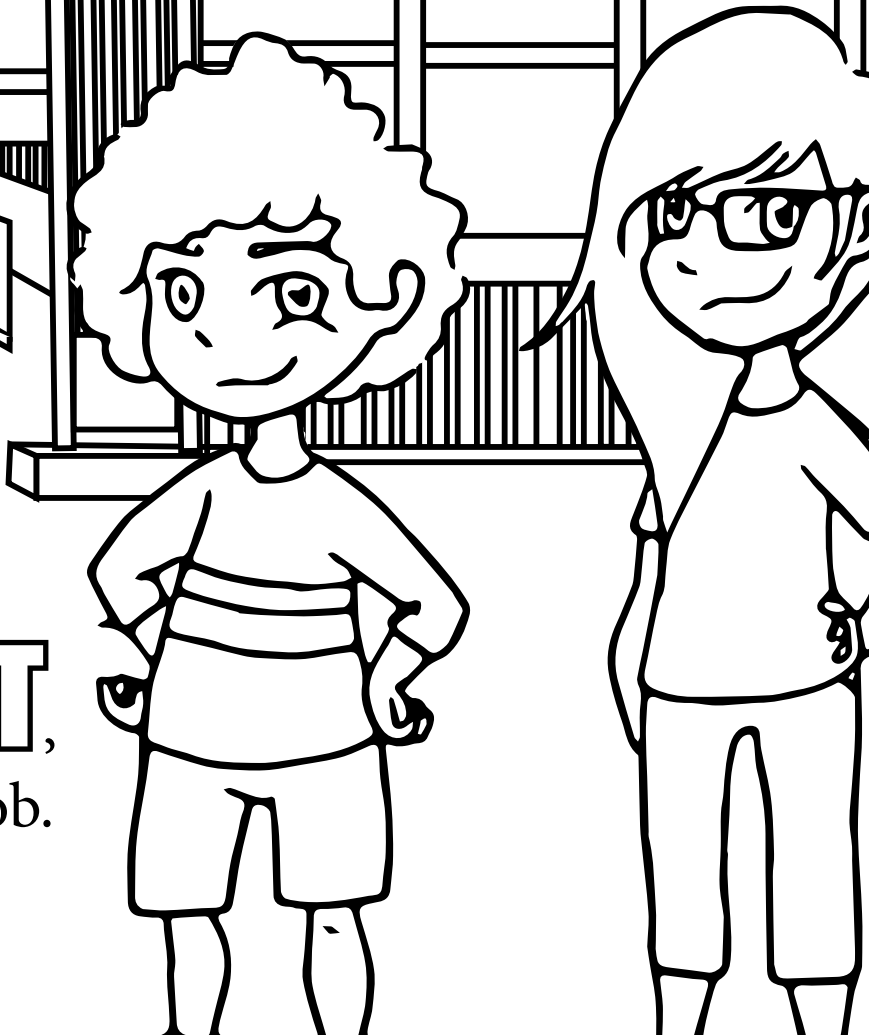

The metal on the boats need to stick together and that is the job of the **WELDER**. There were **ARCHITECTS** and **CONSTRUCTION WORKERS** drawing how a new boat can be built.

At the end of the year, our **BUS DRIVER** takes us to waldemeer. There are lots of jobs there. **TICKET TAKERS**, people that sell food,

DAMEER

even the **MASCOT**,
Wally-Bear, is a person's job.
